

May 14, 2025

Micah Sullivan

Planning and Zoning Department

City of Thompson Station

On May 13, 2024, a public open house was held at Sarah Benson Park in the City of Thompson's Station. The event was organized by The Town to present the proposed Master Plan for the park and to gather community feedback on the plan and playground equipment options.

Community members were invited to review the park design, ask questions, and provide written comments on the proposed improvements. In addition to general feedback on the Master Plan, the open house included an interactive exercise focused on playground equipment selection. Attendees were given four stickers each and asked to vote on their preferred equipment designs displayed on presentation boards.

The voting exercise was well received and resulted in a strong turnout of families and individuals who engaged directly with the planning team. The collected votes will help identify the playground options with the most community support and interest.

This event was part of an ongoing planning process aimed at aligning park improvements with the values and needs of Thompson's Station residents. All input collected during the open house has been documented and is included below.

## Sign-in Sheet

Meeting Date: MAY 13, 2024  
Project No.: 24165  
Project Name: SARAH BENSON MASTERPLAN

NAME	ORGANIZATION	TELEPHONE	EMAIL
